

Travelling in comfort & protecting the environment

Yukon wilderness — untamed, unspoiled. Travelers have unparalleled access to nature's majesty, right outside their RV doors. It is a magical place.

We are sure you will love it here. And we are sure you will agree that Yukon's lakes, rivers and forests are no place to dump your RV holding tanks. It spoils the scenery. It contaminates the environment. It makes people, animals and plants sick.

It is also against the law.

This brochure will guide you to dump stations all along Yukon's highways. Please use them.

And if you see someone who is using the great outdoors instead, please report the incident to Turn in Polluters at 1-800-661-0525.
